

RISK ASSESSMENT FOR

The Climax Ceilidh Band
9 Kings Avenue
Bromley BR1 4JG

ASSESSMENT UNDERTAKEN
SIGNED

1st January 2014
Richard Jones

SIGNIFICANT HAZARDS

Tripping over speaker cables
Fire or injury from poorly maintained electrical equipment
Injury from falling PA speakers

GROUPS OF PEOPLE AT RISK

Members of the band
Members of the public

EXISTING CONTROLS

All loose leads are taped down
Electrical equipment has PAT certification and is regularly visibly checked for damage
Leads to PA speakers are wrapped around the speaker stands to prevent tension on speakers
Speaker stands have a very wide base and are very stable
