To whom it may concern

Portable appliance testing

Some or all of the following equipment will be used by us in performance and has been maintained and tested for electrical safety, along with all leads and connections, according to the 'Electricity at work' regulations 1989, and passed safe.

The following tests were carried out in compliance with the conditions of our public liability insurance:

1. Visual inspection of all plugs and leads including interior wire connections and cord grips.
2. Continuity test for correct wiring and integrity of all leads.
3. Verification of correct fuse power for each mains power lead.
4. Verification of correct earth connection to all equipment casings.
5. Visual check of all equipment for external damage or sign of malfunction.

Date of test – 1st February 2014

Equipment tested:

1. Yamaha Powered mixer (13amp fused Euro power lead)
2. Alto powered speaker (13amp fused Euro power lead) * 2
3. Behringer Digital Mixer (13amp fused Euro power lead)
4. QSC Power Amp (13amp fused Euro power lead)
5. Extension Cable Drum (13amp fused) * 3

This equipment is used by the following bands:

Climax Ceilidh Band (also trading as: Red Hot Ceilidh Band , Apex Ceilidh Band)
Angles
MoltenAmba
